arranged to retrieve from the sports database data representing a sports event, to construct the finite set of data values from the retrieved data and to store the data values in the data value memory.

94.   A data visualisation computer program as claimed in claim 93 wherein the display is further arranged to display a graphical representation of a sports venue at which the sports event is held and to superimpose the contoured representation of the data values on the graphical representation of the sports venue.

95.   A data visualisation computer program as claimed in claim 79 embodied on a computer readable medium.

<u>Remarks</u>

The above amendments have been made to correct informalities, delete multiple dependent claims and clarify the claim of priority.

Respectfully submitted,
